
Modelado Integrado Turbogenerador Análisis Simulación

b análisis de confiabilidad de una planta abrilunio1 de fuerza - un modelo matemático para el análisis de confiabilidad, así como su aplicación en una planta de fuerza ubicada en una refinería de México. La planta de fuerza de la refinería está integrada por dos sistemas de generación denominados plantas norte y sur. El sistema de generación de energía eléctrica de la planta de fuerza norte está integrado por ocho bombas de agua de alimenta ... **diseño y construcción del simulador universitario de ...** - representación en matlab para verificar si el modelado dinámico de las diferentes ecuaciones es el esperado. ³/₄modularización. los modelos simulados de los componentes se conectan en módulos para verificar que el comportamiento del módulo integrado es el esperado o si fuera necesario ajustarlo. ³/₄acople de módulos de simulación. los distintos módulos se conectan entre sí como un ...
